BASIC ECONOMIC DATA FOR IDAHO

Prepared by the
BUREAU OF PLANNING, RESEARCH & EVALUATION
James D. Day, Chief

November 1979

FOREWORD

This publication has been compiled in response to the many requests for industrial employment data. It contains an historical record of Idaho's employment by industry, tabulated on statewide, area, and county levels. In addition there is a narrative description of the two newest local Job Service offices.

We hope the publication of this information will assist private and government researchers in their tasks. A large proportion of the data was gathered as a result of the day-to-day activities of the Idaho Department of Employment.

The assistance provided by Idaho's business community, local office managers, and the area employment analysts is greatly appreciated.

GEOGRAPHY: Boundary County is the northernmost county in Idaho. It is bordered by Canada to the north, Montana to the east, Washington to the west, and Bonner County to the south. The area is primarily mountainous and heavily timbered; however, the Kootenai River Valley is flat and fertile enough for agricultural activities. The Kootenai, Pack, Priest, and Moyie Rivers all flow through the County. Bonners Ferry is the principal city and is located where Highway 95 crosses the Kootenai River.

MAJOR INDUSTRY OR INDUSTRIES: Primary industries are lumber mills and logging. There are also many U.S. Forest Service employees in the County. Other important industries are agriculture, supportive services, and tourism. The primary crops are clover seed, grain, alfalfa, hops, and dairy.

OCCUPATIONS: The most prevalent occupations are related to the major industries. Sawmill workers lead the list, followed by loggers, Forest Service workers, and farm workers.

UNIONS: The area is not strongly unionized. One of the large sawmills is union and one is not. Other unions include the various craft unions and some retail clerks.

FACILITIES: Bonners Ferry is served by a municipal power company and has the lowest rate in the State. Rural Boundary County is served by Northern Lights, R.E.A. Pacific Gas Transmission Company has a large natural gas pipeline that traverses the County, and Washington Water Power distributes this gas in Bonners Ferry. Two freight trucking firms serve the County and two railroads offer freight service to Bonners Ferry. Extensive water supplies are available for future industrial expansion. A small dam on the Moyie River furnishes the power for the Bonners Ferry City Power Company.

TRANSPORTATION: Empire Lines provides bus service to Bonners Ferry, with daily routes to Canada and Spokane, Washington. Passenger service by air or train is not available in town, but both of these services are in Sandpoint, which is 32 miles south of Bonners Ferry.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: Primary schools vary greatly throughout the area, from one-room, milti-graded small rural schools to very modern new units. Secondary units are consolidated into Bonners Ferry High School. Churches in Bonners Ferry include: Assembly of God, Baptist, Catholic, Latter-Day Saints, Lutheran, Mennonite, and Methodist.

Bonners Ferry has a public golf course, a movie theater, and a bowling alley. The area is excellent for outdoor activities such as fishing, hunting, back-packing, and camping.

BASIC ECONOMIC DATA FOR IDAHO

Prepared by the
BUREAU OF RESEARCH AND ANALYSIS
James D. Day, Chief

September 1980

FOREWORD

This publication is the third publication in a series that has been compiled in response to the many requests for industrial employment data. It contains an historical record of Idaho's employment by industry, tabulated on statewide, area, and county levels.

We hope the publcation of this information will assist private and government researchers in their tasks. A large proportion of the data was gathered as a result of the day-to-day activities of the Idaho Department of Employment.

The assistance provided by Idaho's business community, local office managers, and the area employment analysts is greatly appreciated.
